

INDIAN WELLS VALLEY GROUNDWATER AUTHORITY

Ridgecrest City Hall 100 W California Ave., Ridgecrest, CA 93555 760-499-5002

BOARD OF DIRECTORS REVISED AGENDA

Thursday, December 19, 2019

Closed Session 10:00 a.m.

Open Session 11:00 a.m.

In compliance with the Americans with Disabilities Act, if you are a disabled person and you need a disability-related modification or accommodation to participate in this meeting, please contact Lauren Duffy at (760) 384-5502. Requests must be made as early as possible and at least one full business day before the start of the meeting. Documents and material relating to an open session agenda items that are provided to the IWVGA Board of Directors prior to a regular meeting will be available for public inspection and copying at Indian Wells Valley Water District, 500 Ridgecrest Blvd, Ridgecrest, CA 93555, or online at <https://iwvga.org/>.

Statements from the Public

The public will be allowed to address the Board during Public Comments about subjects within the jurisdiction of the IWVGA Board and that are NOT on the agenda. No action may be taken on off-agenda items unless authorized by law. Questions posed to the Board may be answered after the meeting or at future meeting. Dialog or extended discussion between the public and the Board or staff will be limited in accordance with the Brown Act. The Public Comments portion of the meeting shall be limited to three (3) minutes per speaker. Each person is limited to one comment during Public Comments.

1. CALL TO ORDER

2. PUBLIC COMMENTS ON CLOSED SESSION

This time is reserved for the public to address the Board about matters NOT on the agenda. No action will be taken on non-agenda items unless authorized by law. Comments are limited to three minutes per person.

3. CLOSED SESSION

- CONFERENCE WITH LEGAL COUNSEL - POTENTIAL LITIGATION
(Government Code Section 54956.9(d)(2)(e)(1)) Number of cases: One (1) Significant exposure to litigation in the opinion of the Board of Directors on the advice of legal counsel, based on: Facts and circumstances that might result in litigation against the IWVGA but which are not yet known to a potential plaintiff or plaintiffs, which facts and circumstances need not be disclosed.

4. OPEN SESSION - 11:00 a.m.

- a. Report on Closed Session
- b. Pledge of Allegiance
- c. Roll Call

5. PUBLIC COMMENTS

This time is reserved for the public to address the Board about matters NOT on the agenda. No action will be taken on non-agenda items unless authorized by law. Comments are limited to three minutes per person.

6. CONSENT AGENDA

- a. Approve Minutes of Board Meeting November 21, 2019
- b. 2020 Meeting Dates – 3rd Thursday of every month
- c. Appointment of April Nordenstrom as Clerk of the Board
- d. Approval of Resolution No. 09-19 Appointing Jade Zimmerman as TAC representative for U.S. Navy, DoD Liaison
- e. Approve Expenditures
 - i. \$13,226.22 - RWG Law
 - ii. \$33,064.02 - DRI
 - iii. \$183,634.49- Stetson Engineers
 - iv. \$80.36 - The Daily Independent

7. UPDATE ON IWVGA FINANCES

- a. Monthly Financial Report

8. BOARD TO RECEIVE AND FILE IWVGA GSP DEVELOPMENT AND 2020 POST GSP IMPLEMENTATION PRO-FORMAS

9. WATER RESOURCES MANAGER (WRM) REPORT

- a. Report on Proposition 1 Grant Status
- b. Severely Disadvantaged Communities (SDAC) Programs Update
- c. Groundwater Sustainability Plan (GSP) Update
- d. Proposition 68 Grant Status Update

10. UPDATE ON OUTREACH EFFORTS

11. GENERAL MANAGER'S REPORT

- a. Report on IWVGA's Water Marketer (Capitol Core Group)
- b. Well Registration Update

12. CLOSING COMMENTS

This time is reserved for comments by Board members and/or staff and to identify matters for future Board business

13. DATE AND TIME OF NEXT MEETING – January 16, 2020

14. ADJOURN

The page intentionally blank

INDIAN WELLS VALLEY GROUNDWATER AUTHORITY

City of Ridgecrest, Indian Wells Valley Water District, Inyo County, Kern County, San Bernardino County

BOARD OF DIRECTORS MEETING MINUTES Thursday, November 21; 10:00 a.m.

IWVGA Members Present:

Chairman Ron Kicinski, IWVWD	Don Zdeba, IWVGA General Manager
John Vallejo, Inyo County	James Worth, Legal Counsel
Mick Gleason, Kern County	Steve Johnson, Stetson Engineers
Scott Hayman, City of Ridgecrest	Commander Peter Benson, US Navy, DoD Liaison
Thomas Bickauskas, Bureau of Land Management	Lauren Duffy, Clerk of the Board
Bob Page, San Bernardino County	

Meeting recording and public comment letters submitted are made available at:
<https://iwvga.org/iwvga-meetings/>

1. CALL TO ORDER:

The meeting is called to order by Chairman Kicinski at 10:00 a.m.

2. PUBLIC COMMENTS ON CLOSED SESSION:

None.

Chairman Kicinski calls the meeting into Closed Session at 10:00 a.m.

3. CLOSED SESSION:

- CONFERENCE WITH LEGAL COUNSEL - POTENTIAL LITIGATION (Government Code Section 54956.9(d)(2)(e)(1)) Number of cases: One (1) Significant exposure to litigation in the opinion of the Board of Directors on the advice of legal counsel, based on: Facts and circumstances that might result in litigation against the IWVGA but which are not yet known to a potential plaintiff or plaintiffs, which facts and circumstances need not be disclosed.

4. OPEN SESSION:

Meeting was reconvened into Open Session at 11:09 a.m.

- a. Report on Closed Session:
Jim Worth reported that no action was taken which would require disclosure under the Brown Act.
- b. The Pledge of Allegiance is led by John Kersey.
- c. April Nordenstrom calls the following roll call:

Director Vallejo	Present
Director Hayman	Present
Chairman Kicinski	Present
Director Page	Present
Vice Chair Gleason	Present

5. PUBLIC COMMENTS:

The Board hears public comments from Judie Decker, and Tom Browne of Lahontan Water Board.

6. CONSENT AGENDA:

- a. Approve Minutes of Board Meeting October 17, 2019
- b. Approve Expenditures
 - i. \$94,090.01 - Stetson Engineers
 - ii. \$373.50 - City of Ridgecrest (unbudgeted)
 - iii. \$12,862.50 - Capitol Core Group
 - iv. \$1,200.00 – Sun Outdoor Reimbursement to IWVWD

Motion made by Mick Gleason and seconded by Scott Hayman to approve Minutes of Board Meeting October 17, 2019, and the following expenditures in the amount of \$94,090.01 to Stetson Engineers, \$373.50 to City of Ridgecrest, \$12,862.50 to Capitol Core Group, \$1,200.00 to Sun Outdoor. Motion unanimously carries by the following vote: (Ayes: Gleason, Hayman, Kicinski, Page, Vallejo. Nays: None. Abstain: None.)

7. UPDATE ON IWVGA FINANCES:

- a. Monthly Financial Report:

Don Zdeba provides the monthly financial report (made available on the IWVGA website). He states the current account balance of \$119,983.00 permits payment to the expenditures listed above, leaving a balance of \$11,457.00. The Stetson invoice of \$102,654.54 will once more be deferred.
- b. Draft Cost Structure for Independent IWVGA Administration:

Don Zdeba states that staff was tasked with completing a proposed IWVGA Administration Budget (made available on the IWVGA website). Costs were calculated with an assumed staff of 3 and a 15% contingency. Items 1-9 were developed by Indian Wells Valley Water District (IWVWD) staff; remainder were completed by Stetson Engineering.

Director Hayman questions whether the balance provided includes a reserve or if a reserve exists, and if the budget includes legal challenges. Zdeba replies, there are no reserves included or available, and line item 8.b, provided by Jim Markman, covers legal fees.

Director Vallejo raises concerns with staff's choice of California Public Employees' Retirement System (CalPERS) for the retirement plan, as there are cheaper plans available. He further questions if the Following Program contains any overlap with the Dust Control Mitigation Program. Steve Johnson confirms they are separate costs. Vallejo questions the costs needed for line item 10.x.c, Meeting and Preparation (Engineering Support), and line item 10.x.3, Technical Reports. Johnson explains the cost for 10.x.c will cover any prep work and/or attendance at IWVGA, Policy Advisory Committee (PAC), and Technical Advisory Committee (TAC) meetings. Johnson further explains the cost for line item 10.x.3 will fund time spent evaluating the pumping documentation submitted by each non de minimis pumper for the allocation process, which will be a one-time expenditure to IWVGA. Vallejo suggests staff investigate the cost of hiring a part time IWVGA Administrative Assistant, employed through the Water District, to handle IWVGA work.

Chairman Kicinski recommends that IWVGA continue operating on in-kind services, due to the high costs of having an independent administration. Kicinski confirms with Steve Johnson that the expenses provided are based on worst case assumptions and include any potential tasks to ensure there are minimal unbudgeted items.

Vice Chair Gleason expresses a sense of urgency in establishing an IWVGA Administration, most importantly a General Manager, due to the conflict of interest Don Zdeba faces as the manager of both the IWVGA and the IWVWD. He further extends county assistance in providing an office space and cell phones for IWVGA Administration.

The Board hears public comment from Alan Christensen, Stan Rajtora, Donna Hocker, Judie Decker, and Derek Hoffman.

8. BOARD REVIEW AND APPROVAL OF 2020 IWVGA BUDGET:

Don Zdeba presents the four different Pro-Forma Scenarios (made available on the IWVGA website). He clarifies none of these scenarios include the \$210,000 reimbursement to the City for legal work and use of facilities that went into forming the Joint Powers Agreement (JPA), the \$500,000 credit due to the IWVWD, or the \$500,000 reimbursement owed to Kern County. Staff suggests the \$75 per acre foot scenario, which will take effect in April 2020, and reflects a positive balance of \$54,086.00 by September 2020.

Vice Chair Gleason emphasizes that there will be several fees associated with groundwater and does not agree with raising a pump fee to people using less water.

Chairman Kicinski points out that by not raising the pump fee, and pushing this negative budget into the year 2021, pumpers may be paying multiple fees at once due to other costs going forward. Kicinski further raises concerns with being able to pay for the Severely Disadvantaged Communities (SDAC) Program.

Director Vallejo questions if the PAC has looked at fees at any point. PAC Chair David Janiec responds that any pump fees discussed at the PAC meetings were when the \$30 fee was put in place. Vallejo suggests moving forward with the process of adopting an ordinance, without making any final decisions on a set dollar amount regarding the increased pump fee. Board members agree.

Director Page comments that it has been made clear this budget has been structured as such to pay off the GSP, and further questions when staff will present a budget that will better reflect the cost of operations. Zdeba responds that a more structured budget will be made available once the GSP is in place and there is a clear picture of where the IWVGA will focus future projects and funding. Page inquires as to when any future fees may be put in place. Keith Lemieux responds that new fees will start as early as July 2020.

The Board hears public comment from Mike Neel, Josh Nugent, Judie Decker, Stan Rajtora, Tom Browne, Camille Anderson, Elaine Mead, Derek Hoffman, Anita Imsand, and Claudia Ethun.

9. PRESENTATION ON POSSIBLE POST-GSP FEES:

Keith Lemieux gives a presentation on possible post-GSP fees (presentation made available on the IWVGA website).

Chairman Kicinski asks staff and legal counsel to produce a more concrete report of costs for certain projects and how those projects benefit those paying the fees.

Vice Chair Gleason asks for proposals of each potential post-GSP fee.

The Board hears public comment from Judie Decker, Mike Neel, Renee Westa-Lusk, and Tom Browne.

10. RESOLUTION NO. 08-19:

Motion made by Bob Page and seconded by Mick Gleason to approve Resolution NO. 08-19 – Approval of an agreement with Brown Armstrong to conduct a financial audit of the Authority. Motion unanimously carries by the following vote: (Ayes: Gleason, Hayman, Kicinski, Page, Vallejo. Nays: None. Abstain: None.)

The Board hears public comment from Renee Westa-Lusk.

11. WATER REOURCES MANAGER REPORT:

Steve Johnson provides updates on the following grants/programs; (presentations made available on the IWVGA website)

- a. Report on Proposition 1 Grant Status:
Payment of Invoice #2 has been received in the amount of \$352,055.21. Invoice #3 has been submitted to Department of Water Resources (DWR) for a total of \$137,405.47 and covers the months of April 2019 – June 2019. Invoice #4 is in progress.
- b. Severely Disadvantaged Communities (SDAC) Programs Update:
Agreement extension has been tentatively approved through April 2021. SDAC programs will be on hold until a formal written extension has been received.
- c. Groundwater Sustainability Plan (GSP):
Draft GSP was released to PAC/TAC and public on November 4th. Stetson is currently reviewing comments submitted by staff and public. Board to consider adoption on January 16th, 2020 with a submission to DWR on January 24th, 2020. Public workshop to review GSP has been set for Thursday December 12th, 2019; 6:00 PM at the Kerr McGee Center.
- d. Proposition 68 Grant Status Update:
Application was submitted to DWR on November 14th. Grant funding requested was \$753,900 and would be awarded sometime in March 2020.

Jim Worth reads the following statement provided by Jim Markman, to clarify any confusion of a comment he made at the joint PAC/TAC meeting;

“At the recent joint TAC-PAC meeting, I responded to a question as to whether the plan was enforceable during the course of the DWR review of the plan. Such enforcement presumably would be seeking civil remedies from the Court. My response was that I was not comfortable that the statute clearly provides for immediate enforcement while DWR review is pending. I did not state an opinion that immediate enforcement was not available to the GSA and only intended to note the ability to enforce was not legally certain. I understand that information previously received from DWR staff was that DWR would not include review or enforcement of pumping allocations, but only will concern the viability of the attainment of sustainability. I also understand that written confirmation of that DWR understanding of its SGMA role may be provided. In any event, the decision to enforce the adopted Plan and when to enforce it remains at the discretion of the GSA Board and the Board will continue to be offered legal input to consider when making such a decision.”

-Jim Markman of RWG Law

The Board hears public comment from Judie Decker, Renee Westa-Lusk, Carol Vaughn, and Sarah Ziegers.

12. UPDATE ON OUTREACH EFFORTS:

Don Zdeba states, the Indian Wells Valley Water District booth, at the Petroglyph Festival, received several questions regarding the IWVGA.

13. BOARD QUESTIONS REGARDING POLICY ADVISORY COMMITTEE (PAC) AND TECHNICAL ADVISORY COMMITTEE (TAC) REPORTS:

David Janiec, PAC Chair, confirms with the Board, the next committee meetings will take place in January 2020 regarding the possible raised pump fee. Janiec suggests a summary of the GSP be provided at the December 12th Public Workshop, offering a more simplified explanation of all the GSP encompasses. Adam Bingham, TAC Chair, shares news of TAC Member, Earl Wilson’s recent health concerns. Adam sends well wishes for a swift recovery.

14. GENERAL MANAGER'S REPORT:

- a. Report on IWVGA's Water Marketer (Capitol Core Group)
Don Zdeba provides an update on the work being done by Capitol Core Group. All work has been stopped besides that related to the Defense Community Infrastructure Program (CCG Report made available on the IWVGA website).

- b. Well Registration Update:
Non-De Minimis: 4
De Minimis: 80

Vice Chair Gleason asks Don Zdeba how many unregistered wells are believed to be in the Valley. Zdeba states there are approximately 900 total in the Indian Wells Valley and only 107 of those are paying the pump fee and 80 are de minimis. That being said, there are roughly 700 unregistered wells.

15. CLOSING COMMENTS:

Director Vallejo shares well wishes for Earl Wilson's speedy recovery and asks for any contact information for his immediate family. Vallejo thanks PAC/TAC members, and staff for all their hard work, and further expresses gratitude for all the comments received for the GSP.

Chairman Kicinski thanks the public for their patience during the meeting and further extends his well wishes for Earl Wilson.

16. DATE AND TIME OF NEXT MEETING – December 19, 2019; 10:00 a.m.

17. ADJOURN:

Chairman Kicinski adjourned the meeting at 2:18 p.m.

Respectfully submitted,

April Nordenstrom

Executive Secretary
Indian Wells Valley Water District

IWVGA ADMINISTRATIVE OFFICE

MEMORANDUM

TO: IWVGA Board Members **DATE:** December 19, 2019
FROM: Donald Zdeba, IWVGA General Manager
SUBJECT: Resolution 09-19 – Appointment of Technical Advisory Committee (TAC) Member

DISCUSSION

The United States Navy, DOD Liaison user seat on the Technical Advisory Committee (TAC) recently became vacant and is in need of being filled.

Jade Zimmerman has been nominated to fill the seat.

RECOMMENDATION

Staff recommends that your Board accept the nomination and adopt the attached Resolution 09-19.

BEFORE THE BOARD OF DIRECTORS OF THE INDIAN WELLS VALLEY GROUNDWATER AUTHORITY

In the matter of:

Resolution No. 09-19

RESOLUTION APPOINTING MEMBER TO THE TECHNICAL ADVISORY COMMITTEE.

I, _____, Clerk of the Board of Directors for the Indian Wells Valley Groundwater Authority, do certify that the following resolution, on motion of Director _____, seconded by Director _____, was duly passed and adopted by the Board of Directors at an official meeting this 19th day of December, 2019, by the following vote:

AYES:

NOES:

ABSENT:

Clerk of the Board of Directors
Indian Wells Valley Groundwater Authority

RESOLUTION

Section 1. WHEREAS:

(a) The Bylaws of the Indian Wells Valley Groundwater Authority provide that individuals shall be appointed to the Technical Advisory Committee ("TAC") by Resolution;

Section 2. **THEREFORE IT IS RESOLVED** by the Board of Directors of the Indian Wells Valley Groundwater Authority, as follows:

1. This Board finds that the recited facts are true and that it has the jurisdiction to consider, approve, and adopt this Resolution.
2. This Board hereby appoints the individuals on the attached Exhibit "A" to the Policy Advisory.

EXHIBIT A

Technical Advisory Committee(TAC)

DEPARTMENT OF THE NAVY
NAVAL AIR WEAPONS STATION
1 ADMINISTRATION CIRCLE
CHINA LAKE CA 93555-6100

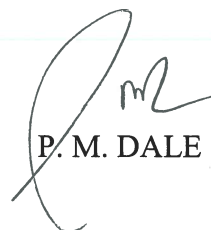

IN REPLY REFER TO:
5400
Ser N00J/374
6 Dec 19

From: Commanding Officer, Naval Air Weapons Station, China Lake
To: Ms. Jade Zimmerman, NAVFAC Southwest, China Lake

Subj: APPOINTMENT AS DOD LIAISON TO INDIAN WELLS VALLEY GROUNDWATER
AUTHORITY (IWVGA)

Ref: (a) Commander, Navy Region Southwest, ltr 5400 Ser N00J/494 of 16 May 17
(b) DoD 5500.7-R, Joint Ethics Regulation, Section 3-201
(c) Indian Wells Valley Groundwater Authority Joint Exercise of Powers Agreement

1. In accordance with references (a) through (c), you are hereby appointed to serve as a Department of Defense (DoD) liaison on the Technical Advisory Committee (TAC) of the Indian Wells Valley Groundwater Authority (IWVGA).
2. As a DoD liaison, you officially represent the DoD in matters of mutual interest but may not:
 - a. Be involved in the management or control of the IWVGA Board of Directors (e.g., vote) but you may serve on IWVGA committees;
 - b. Fundraise on behalf of the IWVGA Board of Directors;
 - c. Promote, nor endorse, the IWVGA Board of Directors; or
 - d. Offer, solicit, or accept gifts on behalf of the IWVGA Board of Directors.
3. If your name will be listed on the IWVGA website or letterhead of the IWVGA next to members of the IWVGA Board of Directors, you must ensure that the term "DoD Liaison" is placed next to your name.
4. You must make clear to the IWVGA Board of Directors that the opinions you express do not bind the DoD or the Navy to any action.
5. DoD Liaisons may not participate in, nor provide advice concerning, any efforts by the IWVGA Board of Directors to influence congressional action on any legislation or appropriation matters pending before the U.S. Congress.
6. This appointment will remain in effect until your detachment from your current assignment, unless rescinded or superseded in writing.

P. M. DALE

Jade Ashley Zimmerman

Geologist

PROFESSIONAL EXPERIENCE

- Master's degree in Geological Science
- 9 years GIS experience
- 6 years project management experience
- 5 years 3D conceptual modeling experience

WORK EXPERIENCE

Department of the Navy, Naval Air Weapons Station

429 E. Bowen Ave., China Lake, CA 93555 – *Physical Scientist*

October 2019 - PRESENT

- Maintain, correct, and reconcile database of water wells drilled by the Navy in Indian Wells Valley and elsewhere on the installation with hard copy well files and well logs.
- Evaluate projects to be carried out on the installation for potential water quality issues.
- Determine scientific merit of proposed geologic research projects to be carried out on the installation and sponsor projects with merit.
- Organize and perform logistical tasks related to water quality and geologic research projects.
- Generate ArcGIS maps of data and locations relating to water wells and various projects on the installation.
- Maintain notes of TAC proceedings and related groundwater legislation.

Searles Valley Minerals

13200 Main St, Trona, CA 93562 - *Geologist*

March 2016 – October 2019

- Act as a secondary representative of Searles Valley Minerals at the Indian Wells Valley Technical Advisory Committee where I attend monthly meetings as part of the Sustainable Groundwater Management Act.
- Maintain notes of TAC proceedings and related groundwater legislation including California Code of Regulations regarding Groundwater Sustainability Plans and

Proposition 1 Water Quality, Supply, and Infrastructure Improvement Act of 2014 for the purpose of relating information to management.

- Served as the TAC secretary from fall 2017 to spring 2018.
- Attend the Indian Wells Valley Groundwater Authority meetings, the Groundwater Policy Advisory Committee meetings, and the Brackish Water Research Study Partnership meetings.
- Manage and maintain a geologic, a chemical, and a well database of over 1,800 wells.
- Modernized subsurface geologic data by creating the first 3D subsurface conceptual models of Searles Lake.
- Serve as the 3D geologic and subsurface modeling expert. Models for specific projects cover areas between 0.15 and 2 sq. miles in size whereas the model of the entire mine property covers 32 sq. miles.
- Responsible for determining well locations and their depths for all development projects and exploration initiatives (seven well systems have been installed to date).
- Analyze data gaps and design, coordinate, and lead exploration drilling campaigns.
- Wrote Capital Acquisition Requests for two 15-deep well (500 ft) exploration campaigns totalling \$958,000.
- Serve as the company's primary drill core and sediment logger for all wells drilled.
- Interpret gamma, induction, resistivity and video well logs obtained from all wells drilled.
- Serve as remediation specialist for subsurface caverns created by the mining process and responsible for developing remediation plans.
- Website Administrator for the company-wide web-based training system GPILearn+ and assisted in its launch and implementation.
- Review Searles Valley Minerals' Cal/OSHA safety compliance policies and training material and determine the content that goes onto the company's training website.
- Assist plant managers and training supervisors in setting up their technical and safety training programs in GPILearn+.
- Act as liaison between Searles Valley Minerals and geoscience research groups including MIT, Binghamton University, Cal Tech JPL, and UC Santa Cruz to date.

Freeport McMoRan

10861 N Mavinee Dr. #141, Oro Valley, AZ 85737 - *Geologist Intern*

May 2015 - August 2015

- Created a mineralization database for the Pewabic Mine in Hanover, NM.
- Generated subsurface geologic interpretations on cross-sections and levels based on historical data to be used as a foundation for future models.
- Digitized 50 historical underground maps and drill-logs from 440 holes using MineSight Mining Software.
- Learned rock quality designation and core logging procedures.
- Taught a short course on using Maptek I-Site at the Sierrita Mine.

Anadarko Petroleum

1201 Lake Robbins Dr, The Woodlands, TX 77380 - *Geologist Intern*

May 2014 - August 2014

- Evaluated turbidite depositional systems in the Gulf of Mexico using paleo logs and well logs from 5 wells. Correlated the wells using Petra, generated synthetic well-ties using Syntool, and used GeoProbe to locate reservoir sands.
- Interpreted a 3D seismic dataset using DecisionSpace Well Planning Software.
- Developed an equation to calculate run-out length of turbidite sands.
- Identified a prospect interval and presented findings to management.

The University of Texas at El Paso

500 W University Ave, El Paso, TX 79968 - *Teaching Assistant*

August 2012 - May 2014

- Taught a lab course in Earth Science to 17 students.
- Assisted in the field and lab for a Structural Geology class of 23 students.
- Taught Igneous and Metamorphic Petrology lab to 12 students.
- Created and graded quizzes and assignments and led lectures and field trips.

American Association of Petroleum Geologists Imperial Barrel Award - UTEP Team

500 W University Ave, El Paso, TX 79968 - *Team Member*

January 2014 - April 2014

- Assisted team in assessing the play potential of the Cooper and Eromanga Basins in South Central Australia.
- Interpreted a 3D seismic dataset using Petrel Software.
- Responsible for characterizing reservoirs, seals, and traps as well as determining their potential for exploitation.
- Identified four prospects and one lead and presented findings at a state-level competition where our team recommended drilling two prospects for 7MMBO of oil.

ConocoPhillips

600 N Dairy Ashford Rd, Houston, TX 77079 - *Geologist Intern*

May 2013 - August 2013

- Reassessed play potential in offshore eastern South Africa.
- Interpreted 2D seismic, gravity anomaly maps, and data from 5 wells to understand the structural and depositional history, and petroleum systems of the region.
- Worked with a specialist to create 1D maturity model using Genesis
- Generated a structural elements map and identified a basin of interest.

- Presented a recommendation to management to reprocess seismic data and obtain drill-core for further exploration.

Monster Beverage Corporation

1 Monster Way, Corona, CA 92879 - *Assistant Event Planner*

April 2011 - August 2012

- Assisted in managing four company databases using Microsoft Access.
- Assisted in managing the company's vehicle fleet.
- Reconciled credit card bills for three company credit cards.
- Reconciled 144 months-worth of overdue expenses within four months of hire date.
- Constructed expense reports for 15 employees using Concur Expense Tracking Software.
- Designed and maintained a filing system for organizing hard copies of employee expense reports.
- Booked hotels and rental cars for employee travels.
- Coordinated with Accounts Payable to resolve expense discrepancies.

Monster Beverage Corporation

1 Monster Way, Corona, CA 92879 - *Event Specialist Assistant Manager*

May 2008 - April 2011

- Assisted in coordinating teams of event specialists at events where the team was responsible for building, operating, and disassembling Monster-branded vendor booths, staging, and lounge areas designed to promote Monster beverages through public interaction. Events included AMA Supercross, music festivals, marathons, etc.
- Assisted in managing loading and unloading semi-trucks full of event equipment.
- Assisted in managing the Monster crew on two summer music tours.
- Trained event helpers in how to distribute cold beverages to the public at events.
- Responsible for driving equipment to events.

Dimensions Scientific Journal

800 N State College Blvd, Fullerton, CA 92831 - *Geoscience Section Editor*

February 2010 - April 2010

- Worked as part of a team of editors to produce the 2010 Dimension Journal.
- Responsible for contacting authors and editing their papers for journal formatting.
- Managed authors to ensure edits were submitted on time.

California State University, Fullerton Tutoring Center

800 N State College Blvd, Fullerton, CA 92831 - *Geoscience Tutor*

August 2007 - April 2009

- Peer tutored various courses in geoscience as well as introductory chemistry.
- Organized and led a weekly study group for Physical Geology.

Monster Beverage Corporation

1 Monster Way, Corona, CA 92879 - *Event Specialist*

August 2006 - May 2008

- Assisted in building, operating, and disassembling Monster-branded vendor booths, staging, and lounge areas.
- Worked as part of the Monster crew on two summer music tours.
- Developed an efficient system for distributing cold beverages to customers at events.

Monster Beverage Corporation

1 Monster Way, Corona, CA 92879 - *Brand Ambassador*

August 2005 - August 2006

- Assisted in distributing cold monster beverages to the public as part of a guerilla marketing street team.
- Helped kick-start the first street team in San Diego, CA.

EDUCATION

The University of Texas at El Paso

El Paso, TX United States

Master's Degree - 2015

Major - *Geology*

GPA - 4.0

Thesis - Evaluating methods of field-based 3-D visualization and their application to mapping metamorphic terranes: An example from the Panamint Mountains, California

Advisor - Dr. Terry Pavlis

- Used a tablet in combination with a laser rangefinder to map metamorphic structures and rock units in the Panamint Mountains, CA.
- Tested photogrammetry software at two locations in Pleasant Canyon and compared resulting models to LiDAR-derived models using Maptek I-Site Studio.
- Managed a team of field assistants over the course of two field seasons.
- Conclusions: Photogrammetrically-derived models require a 2:1 baseline-to-distance ratio and ground control to produce spatially accurate models. An image processing workflow was also developed as a result of this study.

California State University, Fullerton

Fullerton, CA United States

Bachelor's Degree - 2011

Major - *Geology*

GPA - 3.92 Summa Cum Laude

Thesis - Using detrital zircon fission-track ages from modern glacial sediments to evaluate the exhumation of the Western Chugach Mountain Range, South Central Alaska

Advisor - Dr. Phillip Armstrong

- Collected samples from glacial outwash deposits.
- Separated zircon from glacial detritus for Zircon Fission-Track (ZFT) analysis.
- Counted fission-tracks to calculate peak ZFT ages and generate probability density plots.
- Conclusions: Rapid exhumation occurs on the south side of the Chugach Mountains.

Fare Rules: If you decide to make a change to your current itinerary it may result in a fare increase. In the case you're left with travel funds from this confirmation number, you're in luck! We're happy to let you use them towards a future flight for the individual named on the ticket, as long as the new travel is completed by the expiration date.

Your ticket number: 5262124892370

Prepare for takeoff

24 hours before your departure:

Check-in on Southwest.com® or using the Southwest Mobile App. Use your mobile device and receive a mobile boarding pass.

30 minutes before your departure:

Arrive at the gate prepared to board.

10 minutes before your departure:

This is the last opportunity to board your flight if you are present in the gate area and have met all check-in requirements.

If you do not plan to travel on your flight: Things happen, we understand! Please let us know at least 10 minutes prior to your flight's scheduled departure if you won't be traveling. If you don't notify us, you may be subject to our No Show Policy.

[See more travel tips](#)

Don't miss out on automatic check-in

EarlyBird Check-In® reserves your boarding position at 36 hours before your flight, earlier than regular check-in.

GET CODE

We will also email this code to conorjkingston@gmail.com

Limit one code and redemption per customer. Must claim offer by Sunday at store close of the week following date of purchase. Offer valid the Monday - Sunday following the date of purchase. Must be redeemed online for delivery. Order subject to delivery minimum requirements. Handmade Pan Pizza will be extra. Valid for redemption at the same store offer was earned and with the email address associated with this completed purchase.

Something wrong with your order?
Make a claim, and we'll make it right.

REPORT ISSUE

Give to help him live.

Thank you for being a Domino's customer. We would be grateful for your support in helping St. Jude continue its lifesaving mission: Finding cures. Saving children.*

DONATE NOW

Domino's Delivery Insurance program is only available to Piece of the Pie Rewards® members who report an issue with their online delivery order through the form on order confirmation or in Domino's Tracker® within 16 hours of the time of purchase. Non-members must enroll within 7 days of reporting an issue with their online delivery order to be eligible to receive the 60 points. This is a limited time offer and store participation may vary. Limit: one (1) claim per customer. Insurance coverage for this promotion applies exclusively to Domino's Pizza LLC, its affiliates, and independent franchisees. Broader restrictions apply, visit dominosdeliveryinsurance.com for more details.

Your ticket number: 5262125556892

Prepare for takeoff

24 hours before your departure:

Check-in on Southwest.com® or using the Southwest Mobile App. Use your mobile device and receive a mobile boarding pass.

30 minutes before your departure:

Arrive at the gate prepared to board.

10 minutes before your departure:

This is the last opportunity to board your flight if you are present in the gate area and have met all check-in requirements.

If you do not plan to travel on your flight: Things happen, we understand! Please let us know at least 10 minutes prior to your flight's scheduled departure if you won't be traveling. If you don't notify us, you may be subject to our [No Show Policy](#).

[See more travel tips](#)

Don't miss out on automatic check-in

EarlyBird Check-In® reserves your boarding position at 36 hours before your flight, earlier than regular check-in.

[Get it now >](#)

IWVGA ADMINISTRATIVE OFFICE

STAFF REPORT

TO: IWVGA Board Members

DATE: December 19, 2019

FROM: IWVGA Staff

SUBJECT: Agenda Item No. 8 – Board to Receive and File IWVGA GSP Development and 2020 Post GSP Implementation Pro-formas

DISCUSSION

The Indian Wells Valley Groundwater Authority (“Authority”) was formed under a Joint Powers Agreement approved by Resolution 02-16 December 8, 2016. Under Section 6.1 of the approved Bylaws:

“The Authority shall operate pursuant to an operating budget adopted in accordance with Section 9.07 of the Agreement. The Authority shall endeavor to operate each year pursuant to an annually balanced budget so that projected annual expenses do not exceed projected annual revenues. If the General Manager or Chairperson determines the approved budget is inadequate, he or she shall submit recommended modifications to the Board for consideration and action. The General Manager shall implement the approved or revised budget, provided all expenditures for capital improvements shall be approved by the Board before they are undertaken.”

At the November 21, 2019 Authority meeting, Staff presented a pro forma for development of the Groundwater Sustainability Plan (GSP) and four Authority budget scenarios for 2020 using four different pumping fees. After discussion, the Board ultimately requested staff begin the process to raise the pumping fee to \$75 per acre-foot with the caveat that the Board would make a final decision at a later date. There was also clarity required on the GSP development pro forma. The GSP development pro forma has been revised to remove line items that are administrative in nature and include appropriate line items associated with GSP development engineering tasks.

Development of a 2020 Post GSP Implementation budget is complicated by the uncertainty with respect to revenues. At present, the pumping fee may or may not be increased and the Board is considering additional fees for Administration, Augmentation, and Remediation. The amount of those fees and the timing for implementation remains undetermined. Given so much uncertainty at this time with revenues, staff believes it can only present an expense budget to the Board with the understanding that as there is clarity on the fees to be implemented, the budget is revised and presented to the Board.

RECOMMENDED BOARD ACTION(S)

Staff recommends your Board receive and file the Pro-forma for Development of the Groundwater Sustainability Plan and the 2020 Post GSP Implementation Pro-forma reflecting only forecasted expenses with the understanding as fees are approved and implement revisions will be made and presented to the Board.

DATE: December 5, 2019

SUBJECT: Project Update Memorandum – November 2019: DCIP Update, GAO Report on Military Water Scarcity, Recommendations for Consideration

This Memorandum will serve as our Project Update Report for the month of November 2019.

Attached is a late-November 2019 report from the Government Accountability Office (GAO) to the U.S. Senate Armed Services Committee concerning the scarcity of water resources on specific military bases throughout the U.S. The conclusions contained within the GAO report are extremely helpful to arguments in support of Indian Wells Valley Groundwater Authority (IWVGA) position concerning financial participation by the Department of Defense (DOD) in solutions related to infrastructure. The report, however; points out the backlog in DOD's findings concerning water resources and questions the "methodological soundness" of the sources of DOD information relative to water resource supply. Such deficiencies create challenges for obtaining funding and will need to be addressed in both our pending request to the Assistant Secretary of Navy and over the coming year with the DOD.

The GAO Report affects the outcome of the DCIP and other funding mechanisms that may come before the Senate Armed Services Committee for future authorization. I would like to thank Ms. Colleen Newman of the Capitol Core team for identifying the GAO Report as an issue of significance for the IWVGA project.

GAO REPORT DISCUSSION:

What caused the GAO Report

In 2018, the U.S. Global Change Research Program published its Fourth National Climate Assessment reporting that "*warming temperatures will continue to cause worsening droughts and the decline of surface water quality.*" The Office of the Secretary of Defense, Assistant Secretary of Sustainability (Robert McMahon; hereafter "ASECDEF") and the Under Secretary of Defense for Acquisition and Sustainment (Ellen Lord; hereafter "USEC-AS") subsequently conducted assessment of 86 bases across the four branches and in January of 2019 reported findings of water scarcity to the Senate Armed Services Committee as part of Congressional Oversight hearings.

In its FY2019 National Defense Authorization Act, the Senate included report language directing the GAO to "*review DOD's identified or potential effects of water scarcity*" (SRpt. 115-262, S. 2987, at page 64 – John McCain National Defense Authorization Act for Fiscal Year 2019). The GAO report evaluated the extent to which DOD has assurance that is using reliable information to identify installations at risk of water scarcity. It is

unclear if it was the Committee's intent to question the findings of ASECDEF/USEC-AS or to question the completeness of the list of bases included in the ASECDEF/USEC-AS analysis. It is clear the Committee had concerns over the methodology used by USEC-AS to determine water resources for Defense installations.

GAO's Findings

The GAO report specifically states, “critical installations are at risk of water scarcity” and would suggest that DOD analysis may not have fully identified the totality of water scarcity impacting U.S. bases. Such findings help to further IWVGA arguments that DOD has a direct, measurable stake in solving water scarcity issues. Our intent is to utilize such arguments on behalf of IWVGA as we make a direct request for future funding consideration, through DCIP or other means, on behalf of the interconnection project.

The DOD Office of Sustainability utilizes four main reports to determine water risk assessments:

- Energy Report
- Climate Change Report
- Climate Vulnerability Survey
- Department-specific Assessments that are compiled by each military branch

Risk Assessments determined water scarcity – that is, of not having sufficient water available to meet DOD's mission needs. Mission Needs were dependent upon water for activities such as training, weapons testing, fire suppression and sanitation. We assume that “sanitation” included basic water-supply needs assessment for housing and personnel use. **What these Risk Assessments did not include was the water-supply assessments for off-base (outside the fence line) requirements to sustain the on-base mission.** For example, Naval Air Weapons Station China Lake (NAWSCL) has considerable personnel and contractor housing requirements in the neighboring community; much of the base-personnel rely upon off-base providers for shopping, recreation, and other activities. These items were either not included, or not considered, in the ASECDEF/USEC-AS determination for water scarcity as reported to the Congress.

The GAO Report made a broad finding questioning the methodological soundness of the evaluation criteria used by the USEC-AS to determine water scarcity. In its specific findings it noted that individual military branches use different criteria to determine water for Mission Needs. In response, the DOD stated that the individual needs of the branches require different criteria, which may be a valid point.

Further, the Report questioned the difference between the DOD criteria used in the four main reports and those readily acknowledged by the Environmental Protection Agency (EPA) as the “water efficiency best management practices and principles.” The practices include:

- Identify current water availability,
- Identify future water availability,
- Take into account all sources of water,
- Precisely identify locations, and
- Comprehensively include all locations

The DOD did not respond to this GAO criticism. Our discussions with the Assistant Secretary of the Navy, Energy Installations and Environment (Lucien Niemeyer; hereafter “ASECNAV”) would suggest that “all sources of water” (e.g. **imported water supplies**) **are not generally considered.** Further, those discussions would also indicate that comprehensively looking at all locations (e.g. the intra-base transfer of water) is also not generally considered. In fact, for the four main reports used by USEC-AS to determine water scarcity three (Energy Report, Climate Change, Climate Vulnerability) do not consider future water availability or all sources of water. Only Department-specific (meaning base provided) assessments **may** include these practices.

NAWSCL

NAWSCL was included in the 86 bases identified by ASECDEF/USEC-AS as having a water scarcity that impacted the Mission Needs. **That inclusion was based solely on the Department-specific Assessment provided to ASECNAV.** ASECDEF/USEC-AS did not cross-reference the Energy Report, Climate Report, or Climate Vulnerability Survey suggesting back-log in the water scarcity assessment process. This may be problematic for us before the U.S. Senate in several areas:

- Increasing questions concerning the practices used to make the scarcity determination
- Defense of the criteria utilized to determine water sustainability management (i.e. the GSP's determination that there was an overdraft requiring imported water supplies)
- The use of a singular report to determine NAWSCL water scarcity

DEFENSE COMMUNITIES INFRASTRUCTURE PROGRAM UPDATE:

Congressional Actions

The United States Congress is all consumed with impeachment inquiry hearings. While staff continues to signal negotiations between the House and Senate on Appropriations measures, House Members have indicated an “all-or-nothing” approach which have bogged down meaningful discussion. The FY-2020 Defense Appropriations Act, which includes the conference-able item with regard to the Defense Communities Infrastructure Act (DCIP), is a particularly thorny negotiating point between the House and Senate Members. At issue really isn't the DCIP, but the Trump Administration's request for Defense spending relative to border security and increases (versus cuts) to specific areas of defense spending. The House and Senate are in disagreement over DCIP. This is, however, a minor issue and is not a main topic of discussion in the Appropriations debate.

It is possible that Congress will be forced to pass another Continuing Resolution into 2020 if these spending bills are not very quickly addressed. DCIP funding of portions of the \$100 million authorization, therefore, has a lower probability during FY-2020/21 budget cycles. Per the requirements of Capitol Core's revised budget, we have kept our discussions in November to a minimum with members of Congress on Capitol Hill regarding the DCIP. We have made the IWVGA position known on Capitol Hill and will continue to work with Appropriations staff, when efforts become meaningful. We are continuing to monitor the progress of the Appropriations bills and will engage if necessary (within our hourly budget), should negotiations on these bills turn positive.

We must reiterate that a failure to fund the DCIP during these FY budget cycles has little impact on the IWVGA infrastructure project. Funding for the IWVGA infrastructure project is not required until FY2022, at the earliest. Capitol Core's efforts have been to position the project for future FY funding cycles. The IWVGA infrastructure project is not currently on the list of the eligible DCIP funding projects. It is our goal to position this project as a priority funding requirement for the U.S. Navy under DCIP or other programs that may be available to the Authority. While failure to fund DCIP and other programs in this FY may harm other projects with tighter timelines, the IWVGA's foresight to position the project for future funding may prove to be beneficial to the overall goal of funding the infrastructure project.

DOD – ASECNAV

In November, Capitol Core transmitted the draft GSP and an Executive Summary to the ASECNAV's office, per their request, for review. We are awaiting their comments and review of this document. Based upon the GAO Report, we are prepared to follow-up with ASECNAV to offer assistance in meeting the EPA's water

efficiency best management practices on NAWWSCL water scarcity issues. This will utilize the draft-GSP reports as a means of meeting the GAO recommendations that Congress is likely to require.

Capitol Core is in the process of developing a formal request of ASECNAV for consideration of funding the IWVGA infrastructure project through DCIP or other means. While our initial request sought to formalize a DCIP funding request, we have changed our strategy to broaden such request in general. The purpose of the report to ASECNAV will be to highlight the details of the IWVGA infrastructure project without tying it to a specific DCIP funding request while meeting the best practices of the EPA as contained in the GAO Report. This does not preclude a DCIP funding request. It simply broadens the request for DCIP, or other funding programs as deemed necessary to meet the Mission Needs of NAWWSCL. **A draft report/request is due to IWVGA in December 2019.**

CONSIDERATION OF COALITION IN SUPPORT OF WATER AND/OR CRITICAL INFRASTRUCTURE

Discussion

The list that the Association of Defense Communities (ADC) has compiled of DCIP eligible projects and other off-installation (outside the fence line) requested projects before the DOD for consideration include a wide-range of critical infrastructure, general improvements, quality of life enhancements, telecommunications, and transportation projects. The House Appropriations Committee staff (both Majority and Minority) have raised concerns that DCIP and other off-installation infrastructure projects create the opportunity for a “Congressional slush fund” at the expense of mission critical spending within the Defense Appropriations legislation. In addition, many have argued that DCIP and other types of funding more suitably belong in the Military Construction Appropriations legislation (“MilCon”) and not in the main Defense Appropriations bill. The MilCon budget has historically had challenges to fund infrastructure adequately to meet the on-base and off-base project demands. To address the concerns of the House Appropriations Committee, it may be advisable to advocate for priority-use of spending of DCIP or other appropriated amounts on projects that address potential critical infrastructure impacts and directly affect the mission need of the military installation. This would prioritize critical infrastructure (water, power, transportation access-point) over enhancement, general improvement, telecommunications, and quality of life projects. Taking this recommendation will divide the Association of Defense Communities membership and the Association will be unable to support the establishment of priority-criteria.

Coalition Development

Four similar critical-infrastructure projects are currently contained within the ADC’s list of “DCIP-Eligible” projects. This may or may not be a comprehensive list of projects that have sought funding from DOD. The four projects are in various stages of planning/funding and critical timeline. They include:

- **City of Mountain Home, Idaho** – Mountain Home AFB: \$62 million water interconnection and enhanced water supply project. Timeline for the project is critical and immediate. Funding has not been obtained.
- **City of Leavenworth, Kansas** – Ft. Leavenworth: \$1.77 million water interconnection rehabilitation project for continued water supply. Timeline is unknown. Funding has not been obtained.
- **City of Clovis, New Mexico (Clovis Water Department) and Ute Indian Tribe** – Cannon AFB: \$30 million water infrastructure project from the Ute Reservoir/Ute Reservation to the AFB for water supply. Mission critical designation by the AFB command already impacting operations. Funding has not been obtained.

- **City of Enid, Oklahoma** – Vance AFB: \$45 million 70-mile water interconnection project for on-base and off-base (regional) supply. Timeline unknown. Funding has not been obtained.

It may be advisable to build a coalition of agencies with similarly situated critical infrastructure projects for the purposes of enhancing lobbying requests to the United States Congress and the DOD as well as developing prioritization criteria for DCIP and other funding requests that favor these critical infrastructure projects. While these projects may be seen as competing for a limited authorized funding amount (the total of the project costs including IWVGA infrastructure project exceeds the \$100 million in authorized DCIP funds) such a coalition may increase the priority for reauthorization or additional programmatic funding appropriations. It is unlikely that a coalition would defray or reduce IWVGA expenditures on lobbying. However; it increases the number of voices within the DOD for funding support.

RECOMMENDATIONS AND DISCUSSION OF RECOMMENDATIONS

1. IWVGA should assist the Department of Defense, through ASECNAV, ASECDEF, and USEC-AS, to meet the GAO methodologies in support of the water scarcity finding at NAWWSCL.

To not directly address the GAO methodologies calls into question the findings of the Department-specific Assessment of water scarcity at NAWWSCL. Should that occur it will likely become an impediment to future authorization by Congress directly for the IWVGA infrastructure project and/or will harm DOD's determination for funding the project as "critical to the mission needs" of NAWWSCL. The data likely exists within the reports obtained during the GSP process and can be adapted to meet the methodology requirements. In our opinion, IWVGA can accomplish this task now, as part of the early request phase, or it can potentially answer to deficiencies in the request at a later date when funding need is more defined, and timelines are critical. We strongly believe the Senate Armed Services Committee will consider the points of the GAO Report in any future discussions over water scarcity determinations and related funding requests.

At a future date, when Congress has returned to its legislative duties, we believe it is appropriate to brief Members of the Armed Services Committee (including Senator Feinstein) on the methodology utilized to determine water scarcity at NAWWSCL.

2. All discussions with DOD and the U.S. Congress should address the critical nature of off-installation water use by NAWWSCL and the need for imported water supplies.

Capitol Core has already implemented this recommendation and included discussions of the both items with ASECNAV and ASECDEF offices. The inclusion of NAWWSCL in the DOD's water scarcity determinations was based solely on the on-base water utilization needs being impacted. This potentially limits the DOD's view that off-installation needs are mission critical to NAWWSCL. Having not seen the Navy's Assessment on water supply, we cannot determine if the report contained off-installation requirements. Our discussions with ASECNAV and ASECDEF would indicate their consideration is based solely on on-base utilization.

We have previously raised concerns that ASECNAV's office was under the misimpression that water resiliency at NAWWSCL could be achieved through additional efficiency measures. This misconception needs to be directly addressed in written form and supported through factual analysis. Capitol Core will require assistance from Stetson Engineering in supporting that analysis. Again, this demonstrates that ASECNAV is looking solely at on-base activities for achieving water resiliency. This is just not possible at NAWWSCL.

3. IWVGA should expand its request for funding to include DCIP or other funding programs.

In our opinion, a Continuing Budget Resolution ("CR") will likely occur for the remainder of FY2020 and FY2021 Budget Cycles. The U.S. Congress is preoccupied with other priorities and will be well into the 2020-election cycle. Such partisan debate will prevent lawmakers from achieving a spending plan beyond what has

already been developed. While DCIP will likely not be funded during FY2020 (and possibly into FY2021), this does not reduce the need for IWVGA to make the early funding request during this Congressional Session. Budget consideration or other funding mechanisms available to DOD should be explored and planning is key to that effort. If IWVGA waits until funding is needed, DOD will be unable to plan for the expenditure, Congressional priorities for spending will be established, and requested amounts are likely to be reduced, put-off to future years, or eliminated as outside the established priorities. Part of our success in these requests has been the future-scheduling of the project and not the usual “immediate need” requests that appropriators and departments receive.

4. IWVGA should consider the formation of a loose coalition of critical infrastructure project partners as a means of raising the importance of DCIP-qualified projects and addressing the concerns of the House Appropriations Committee.

There is strength in numbers in Washington D.C. The four project proponents listed above are requesting similar amounts to IWVGA and some have been in project development for a number of years. For example, Mountain Home, Idaho has been working for seven years to fund their project and has reached a critical point in the project’s timeline. IWVGA would likely benefit from coordination and may be able to assist other projects (only increasing the visibility of the need to reauthorize programs like DCIP).

Capitol Core is happy to coordinate or to continue our efforts solely on behalf of the IWVGA project without coordination. Our strategy is not dependent upon a coalition, coalition formation would not alter our current workplan, although such a coalition may be a useful tool in the future.

Should you have any questions, please contact me directly at 714.299.0053.
